SafeGuard AI

Mobile app and Wear OS smartwatch · UI design

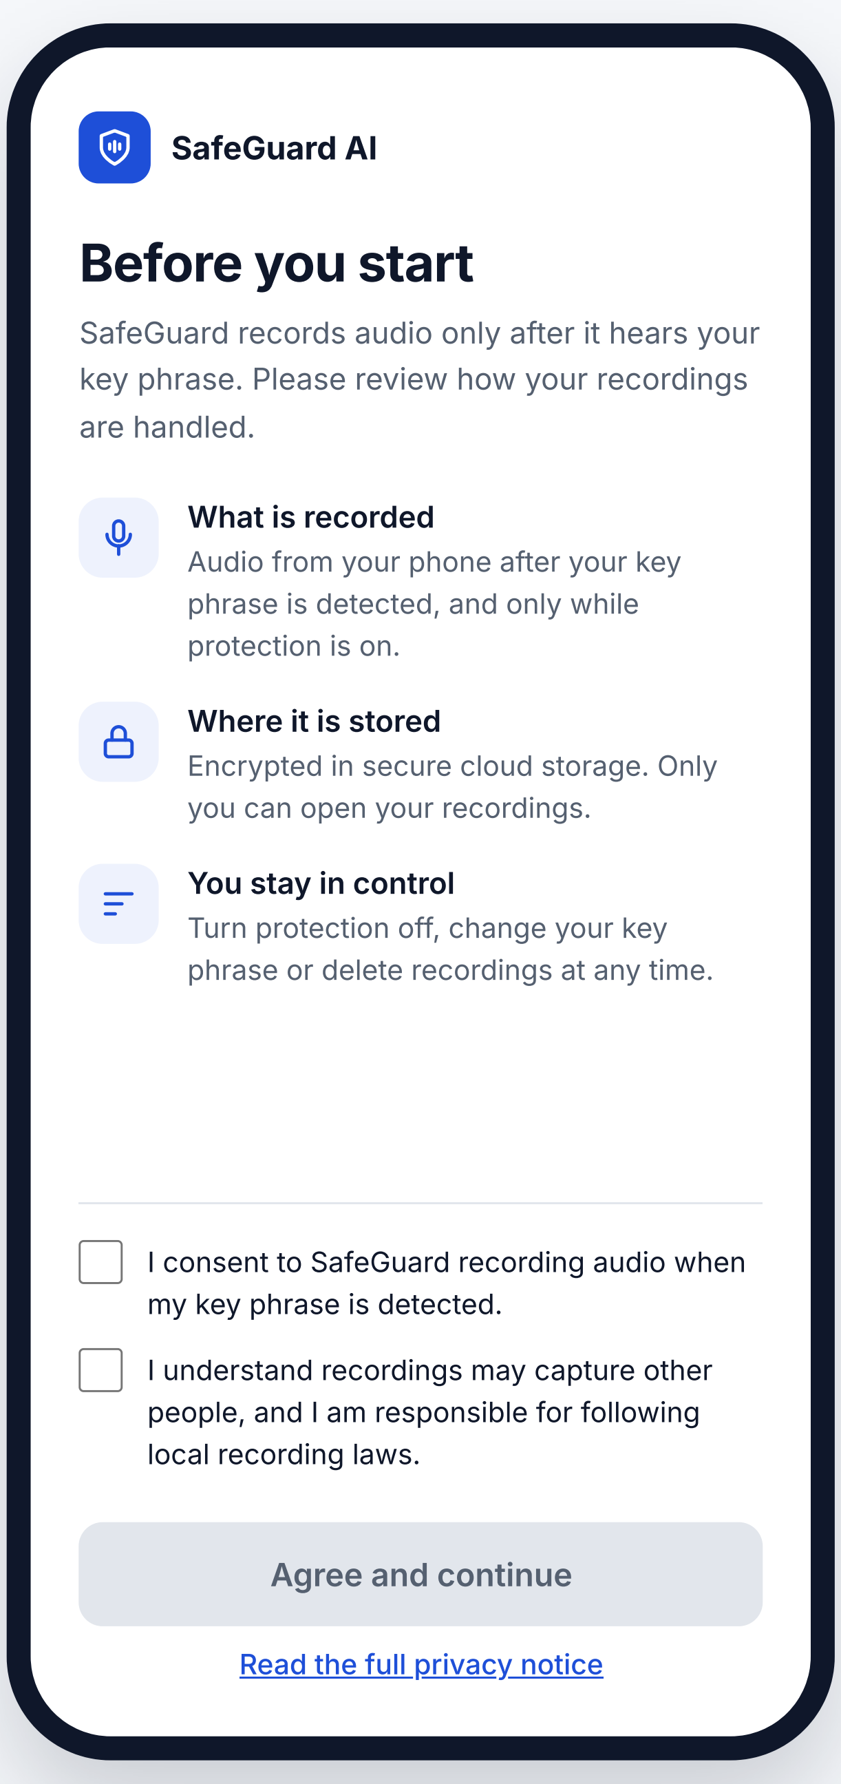
COMP6002 Computer Science Project · Group 13 · MVP version 0.1

- 1 Secure cloud storage
- 2 Set / change key phrase
- 3 User consent
- 4 Protection mode on / off
- 5 Delete recordings
- 6 Basic settings

MOBILE APPLICATION

Phone screens

Six screens, one per MVP module. Built for Android (Flutter), 390 × 844 base size.



SafeGuard AI

Before you start

SafeGuard records audio only after it hears your key phrase. Please review how your recordings are handled.

What is recorded
Audio from your phone after your key phrase is detected, and only while protection is on.

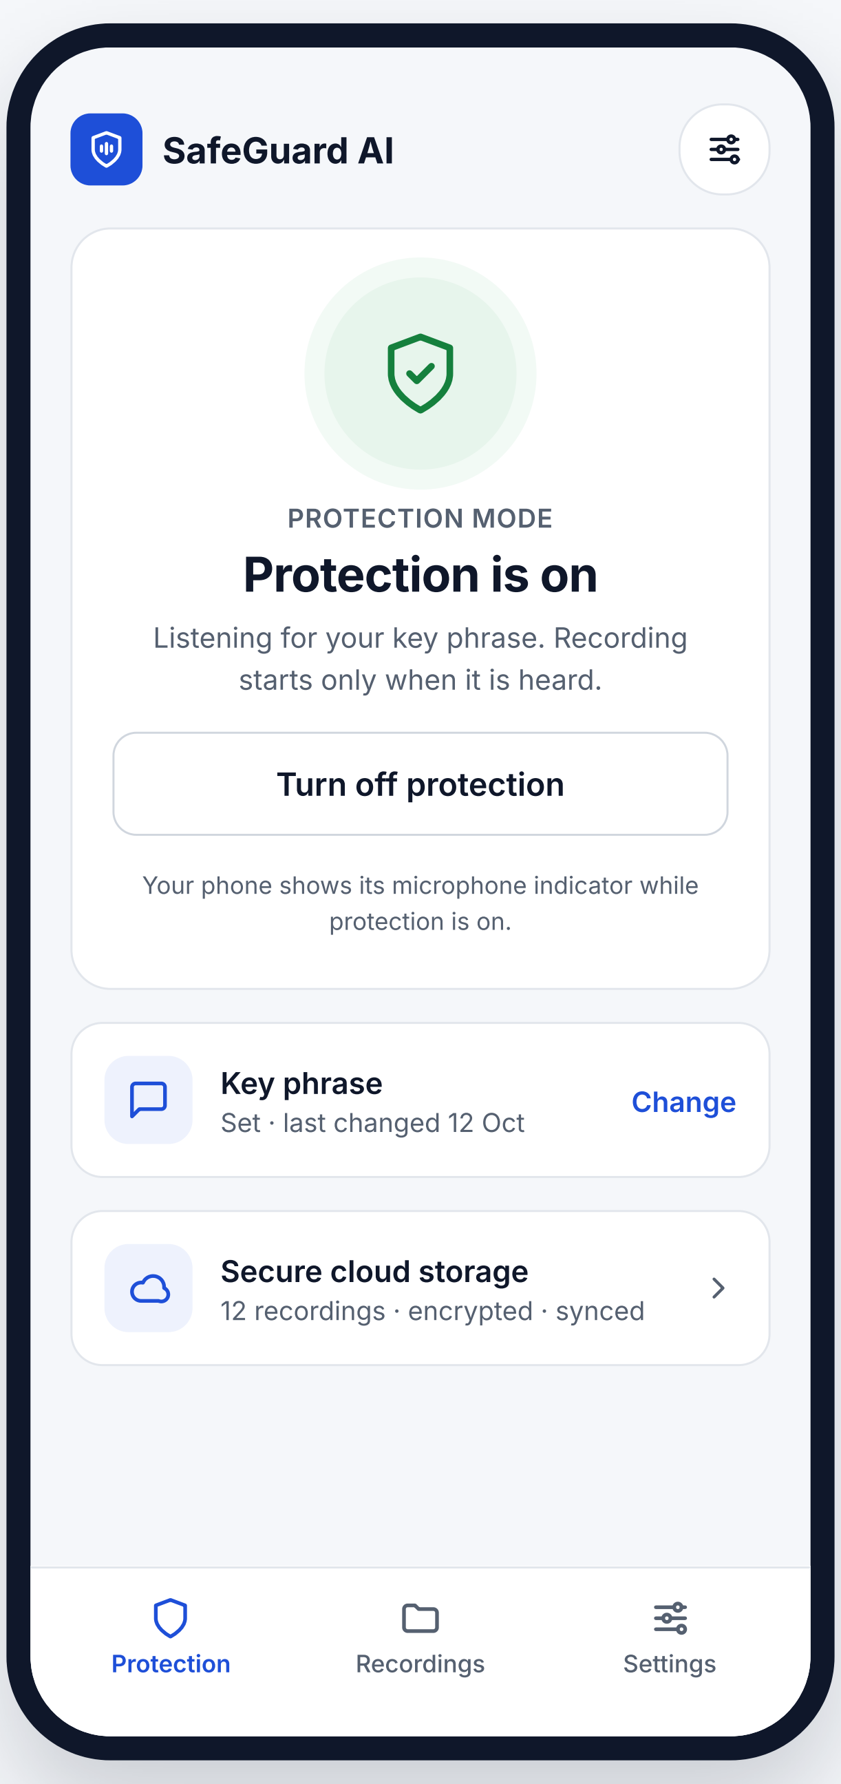
Where it is stored
Encrypted in secure cloud storage. Only you can open your recordings.

You stay in control
Turn protection off, change your key phrase or delete recordings at any time.

☐ I consent to SafeGuard recording audio when my key phrase is detected.

☐ I understand recordings may capture other people, and I am responsible for following local recording laws.

1 · Consent
Module 3 · Take user consent



SafeGuard AI

PROTECTION MODE

Protection is on

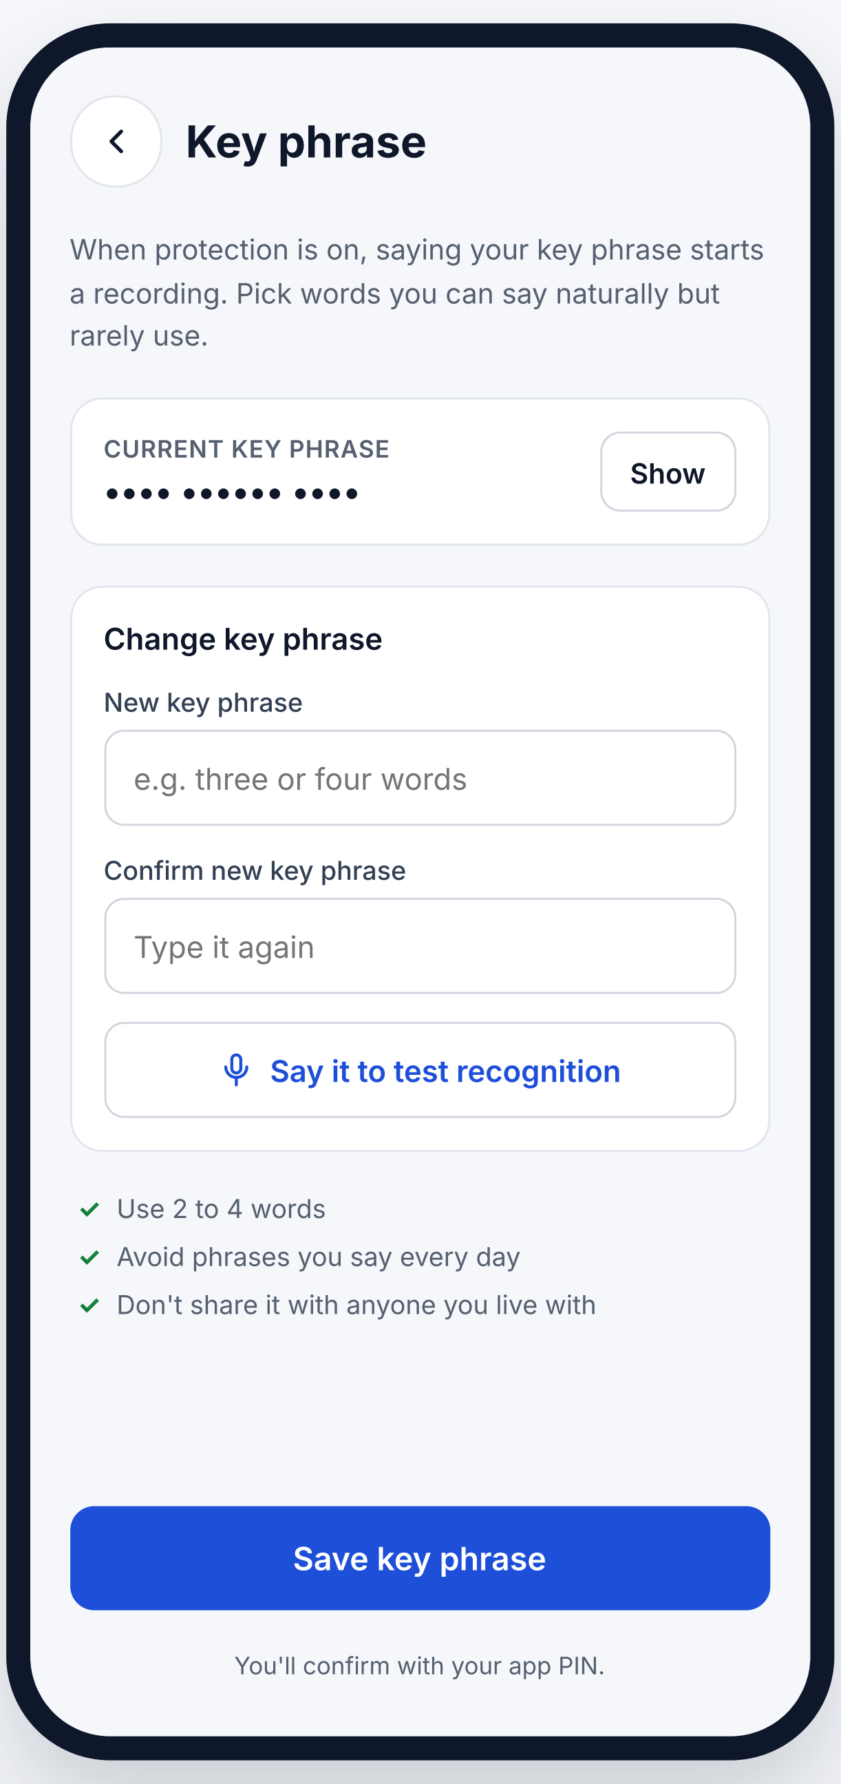
Listening for your key phrase. Recording starts only when it is heard.

Your phone shows its microphone indicator while protection is on.

Key phrase — Set · last changed 12 Oct — Change

Secure cloud storage — 12 recordings · encrypted · synced

2 · Home
Module 4 · Protection mode on / off



Key phrase

When protection is on, saying your key phrase starts a recording. Pick words you can say naturally but rarely use.

CURRENT KEY PHRASE
•••• ••••••• ••••

Change key phrase

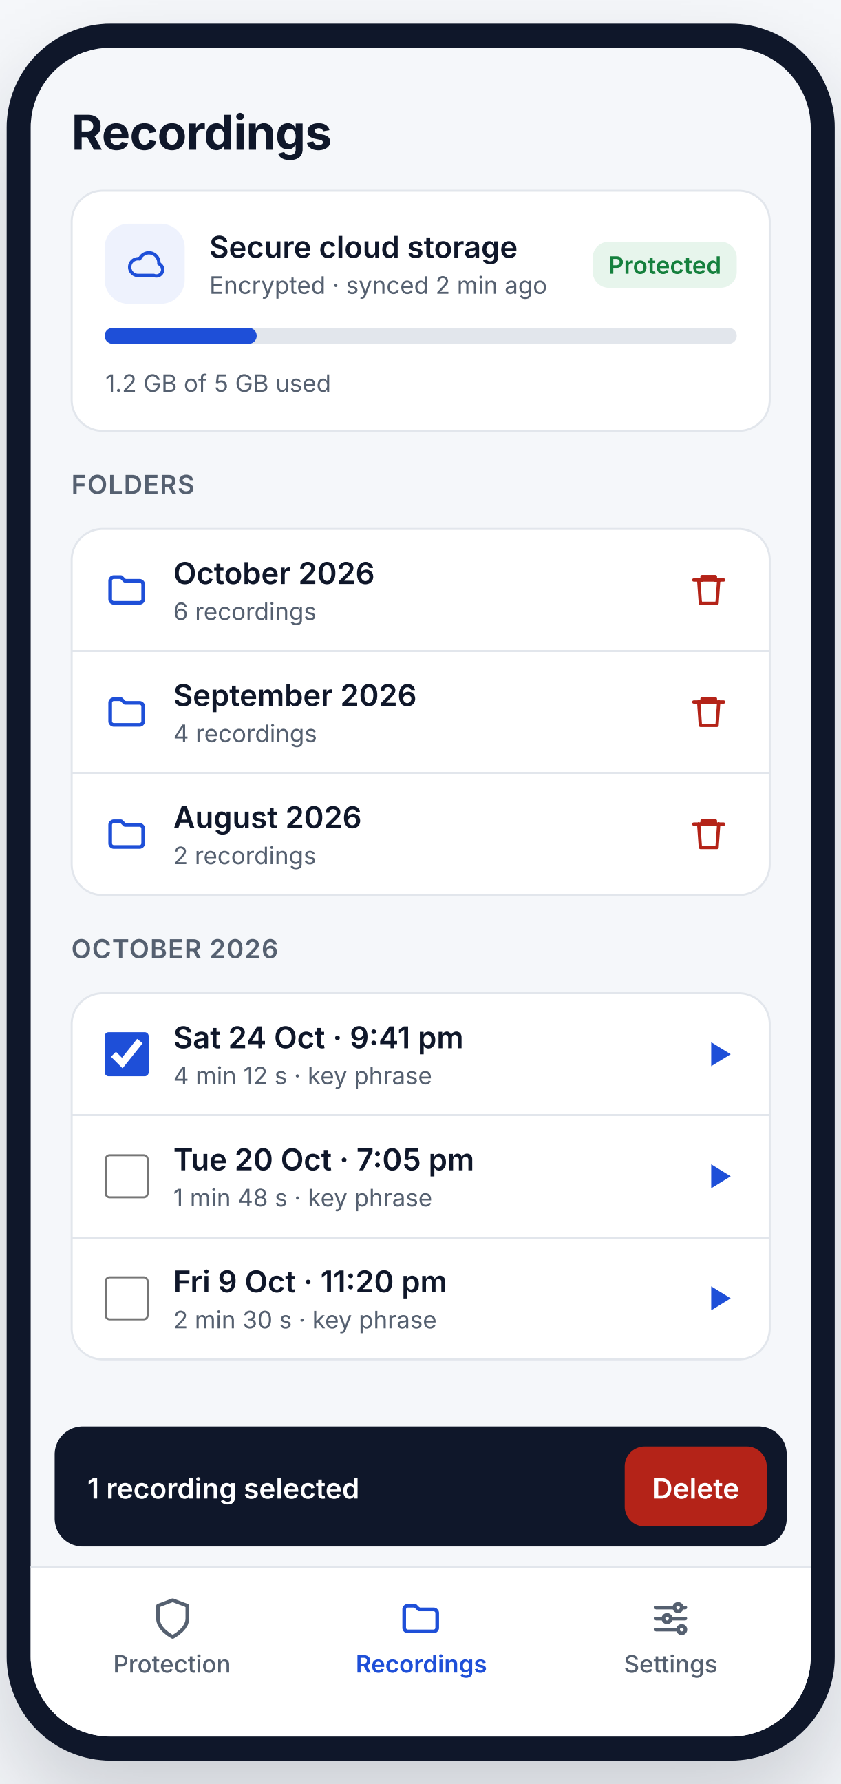
New key phrase: e.g. three or four words

Confirm new key phrase: Type it again

- ✓ Use 2 to 4 words
- ✓ Avoid phrases you say every day
- ✓ Don't share it with anyone you live with

You'll confirm with your app PIN.

3 · Key phrase
Module 2 · Set and change key phrase



Recordings

Secure cloud storage — Encrypted · synced 2 min ago — Protected
1.2 GB of 5 GB used

FOLDERS

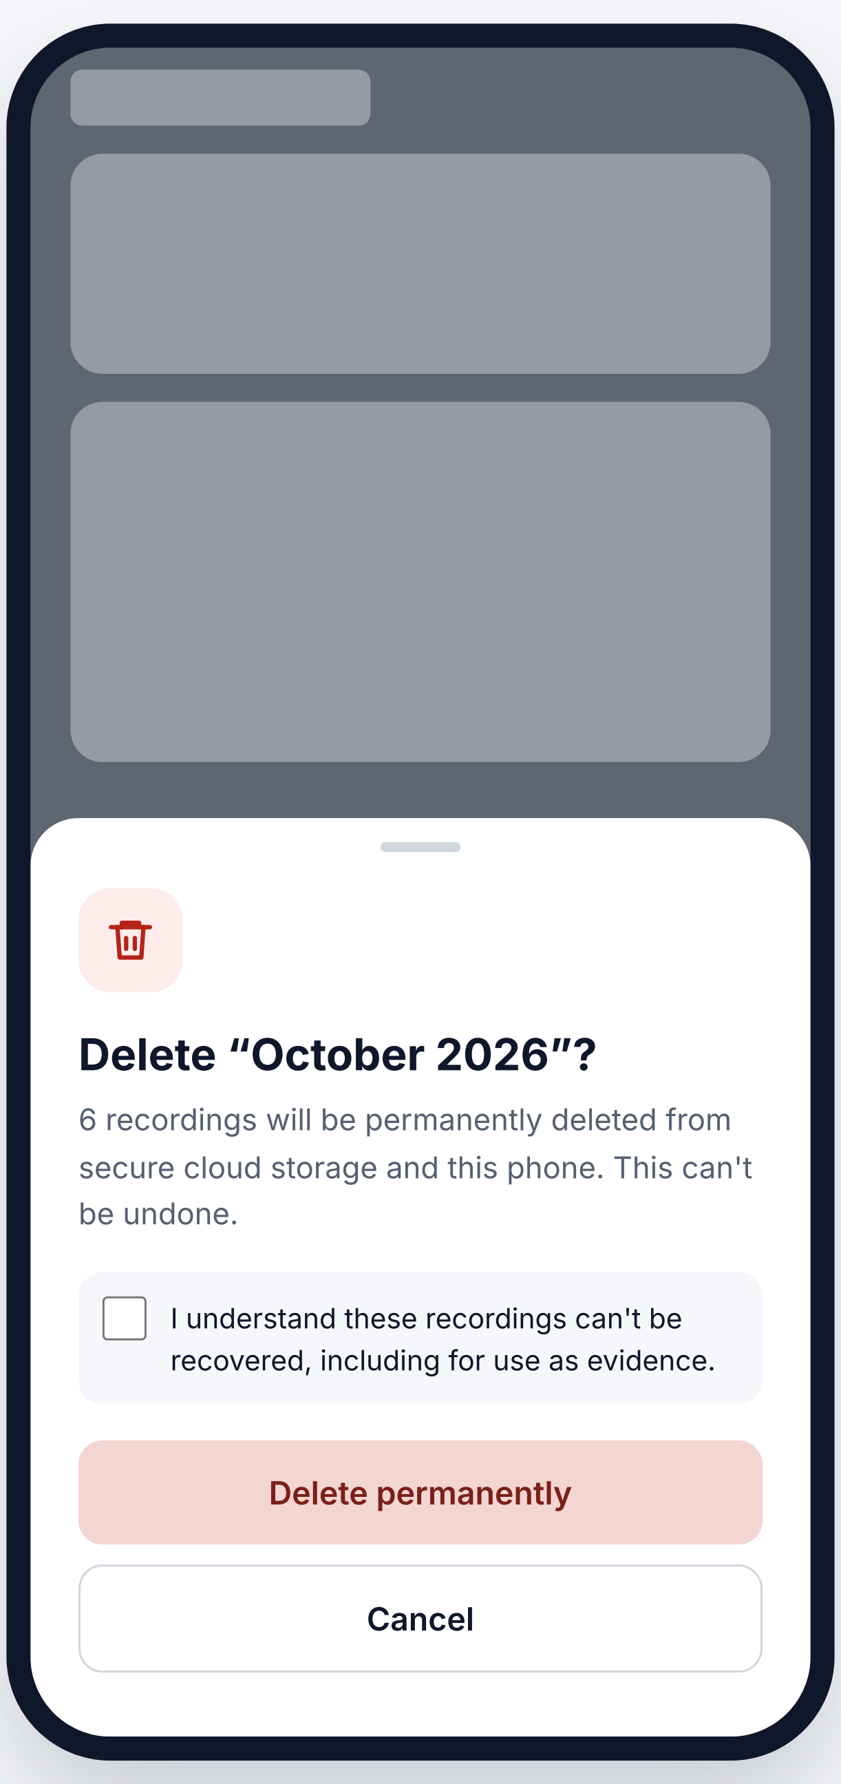
- October 2026 — 6 recordings
- September 2026 — 4 recordings
- August 2026 — 2 recordings

OCTOBER 2026

- ☑ Sat 24 Oct · 9:41 pm — 4 min 12 s · key phrase
- ☐ Tue 20 Oct · 7:05 pm — 1 min 48 s · key phrase
- ☐ Fri 9 Oct · 11:20 pm — 2 min 30 s · key phrase

1 recording selected

4 · Recordings
Module 1 · Secure cloud storage



Delete “October 2026”?

6 recordings will be permanently deleted from secure cloud storage and this phone. This can't be undone.

☐ I understand these recordings can't be recovered, including for use as evidence.

5 · Delete
Module 5 · Delete recordings and folders

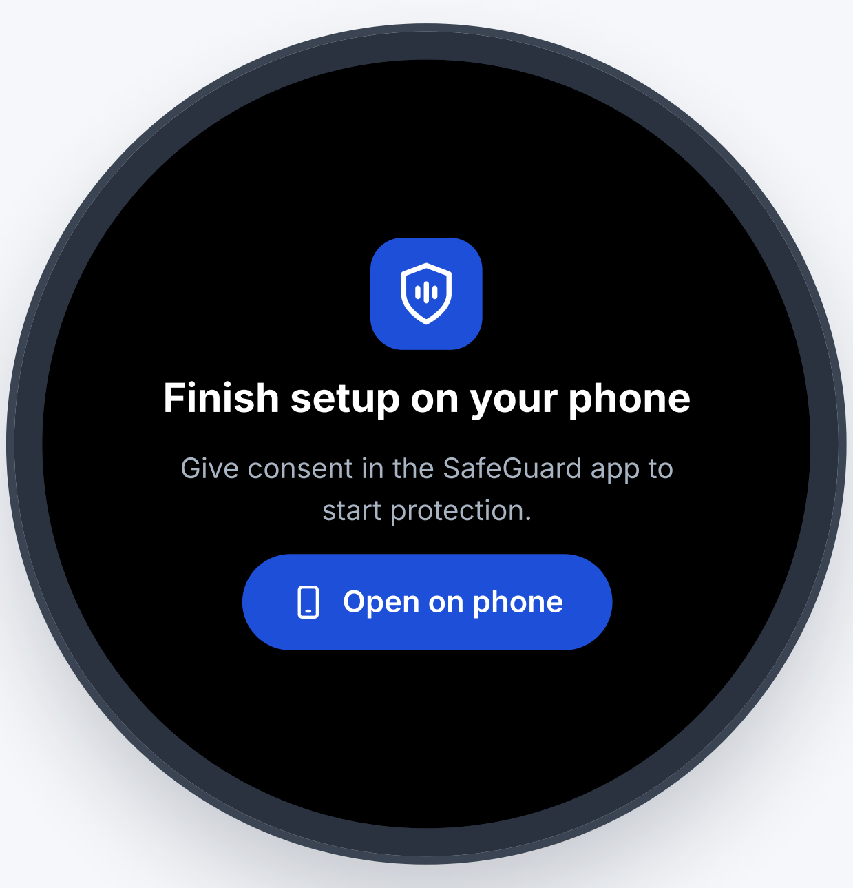
SMARTWATCH

Wear OS screens

The watch is a companion: it shows protection status, records when the key phrase is heard, and sends recordings to secure cloud storage. Consent, key phrase changes and deleting are done on the phone.



Finish setup on your phone

Give consent in the SafeGuard app to start protection.
